

Crypto Donutz

Let's change the way crypto donations work

What is Crypto Donutz?

Crypto Donutz is Web3.0 donation platform

Our goal is to create a convenient service that will help content creators use crypto as a favorable donation method

What's wrong with the way it works today?

Financial traction of your donations

How much donations you get this week? Who and how often supports you?

Inability to interact with your crypto supporters

There is no understandable way to give your supporters some signs of attraction

How we gonna solve it?

Financial reports

Content creator will be able to see his donation stats for a specific period of time as well as who sent him these donations

Unique badges for supporters

You can create and assign special badges letting your supporters be valuable and get noticed by favorite content creator

Worth to mention

All it takes is just 1% bite

Our platform is free for anyone, the only commission we take is 1% of your donations

Payment via Smart Contract

We don't have any control over your money, everything is done via smart contract

FAQ

What's your contract address?

We've deployed smart contract on Nile Testnet **TX6dd8YNKRCkZazcBZUHZQjyckzxvPKYJU**

What network to use?

Make sure to use Tron Nile Testnet only. The Mainnet release will come soon.

Who can become content creator or supporter?

We believe that crypto should be accessible for anybody, so anyone can become either supporter or content creator. We also won't have any geopolitical limitations and unnecessary verification processes

Why it should be interesting to supporters?

They can become your top supporters and it will be publicly available for anyone to check. They can be noticed by favorite content creator they follow
