

# TRONJOY

Earn rewards by playing skill  
games with **Free-to-Own** NFTs

**Tronjoy.io**

# Free-to-Own

**Free-to-Own** is a combination of **Free-to-Play**, which was one of the main innovations in web2 gaming, and **NFT ownership**.

As a Tron supporter **you can mint an NFTs for free**, use it to play in numerous **skill games and earn rewards** - such as TRX, stablecoins and other NFTs -.

**We won't sell a single NFT,  
all of them will be given away.**

**1** Mint a Free NFT

**2** Play skill games

**3** Earn Rewards

## Partnering with existing Tron Projects

Web3 should open the doors to a more **cooperative environment**, that's why we welcome any Tron project to get in touch with us for a potential deal.

We will create **personalized traits** in our NFT collections and the holders of these projects will be **whitelisted** so they can mint one of our NFTs for **free**.

Contact us:

**hi@tronjoy.io**

# Arcade Machines

Our first collection is inspired by the arcade machines of the 80s, and it will consist of **10,000 NFTs**.

As an arcade machine holder, you will be able to **play** in numerous skill games and win different **game cartridges** depending on your score.

## Game Cartridges

Our second collection is inspired by the game cartridges of the 80s and 90s consoles, such as NES, GameBoy and MegaDrive.

The only way to win one - or more - game cartridge is by holding an arcade machine NFT, and playing the skill games that we will be adding to our platform.

Game cartridges will be divided in **4 types** or rarities: **platinum, gold, silver and bronze.**

By combining an arcade machine and a game cartridge, you will be able to mint a free **Hero.**

# Heroes (I)

This is where the real fun begins!

You can mint a **Hero NFT** by combining an arcade machine and a game cartridge.

The type of the Hero will depend on the traits of the arcade machine and the rarity of the game cartridge being combined.

3 TRAITS of the same theme	Mythical		Mythical	Legendary	Legendary	Rare	Rare	Common
	100%		20%	80%	25%	75%	75%	25%
2 TRAITS of the same theme	Mythical	Legendary	Legendary	Rare	Rare	Common	Rare	Common
	20%	80%	50%	50%	80%	20%	50%	50%
1 TRAITS of the same theme	Legendary	Rare	Legendary	Rare	Rare	Common	Rare	Common
	60%	40%	10%	90%	50%	50%	25%	75%
0 TRAITS of the same theme	Legendary	Rare	Rare		Rare	Common	Common	
	10%	90%	100%		30%	70%	100%	

## Heroes (II)

The cartridges used during the process will be **burned**. Not the arcade machine, that will allow you to create more than a hero.

Heroes NFTs can be used to play for free in skill games' **tournaments**, where you can **earn TRX and stablecoins**.

The rarity of the Heroes will determine how many times you can play a game in each tournament to save the highest score.

## Our Goal

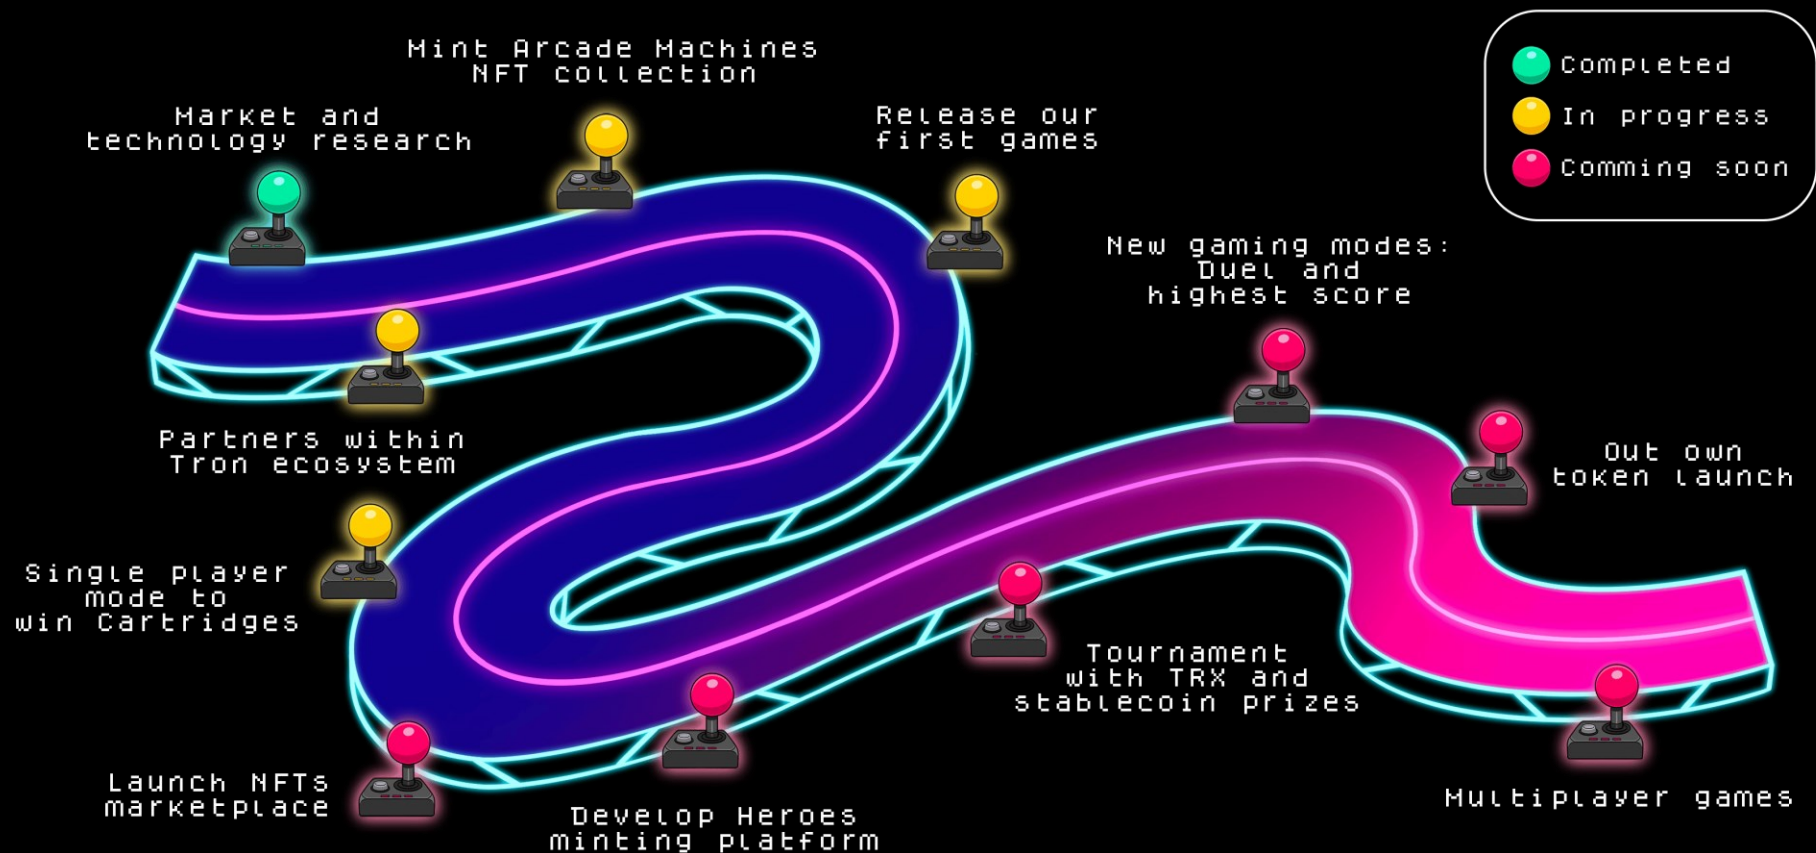

Our first goal is to **create value** for our supporters and **early adopters**, and we will be building the gaming platform and adding the first games and tournaments without raising any funds.

We have done well in the past, and we will be using our **own resources** to develop this gaming platform, and also to fund the tournaments' prizes with our own money.

Once we have proved ourselves and created a decent community, we will start looking for VCs willing to join us to **take the project to the next level**, and will work to introduce our own token in Tronjoy.

# Roadmap

# TRONJOY

A new gaming era begins:

**Free to Own**
