

Nominate your heir with Inheritokens

Inheritokens allows you to nominate a successor to your assets before your demise. This project aims to keep the flow of tokens and NFTs around the web3.

Inheritokens works like...

- We monitor account activity and beware of 6 months of inactivity.
- We send an email to the account holder
- If we receive a reply, the assets are yours. Else, it transfers to your heir
- The heir has to come over to our portal to claim their new-found treasure!
- There is no step 5, we're just waiting for you to start connecting your wallet and fill in the deets of your email ID and your nominee. Go NOW!
