

Transparency at every step

ProvyLens

Your lens into the supply chain

Problems

- ▶ Lack of transparency in supply chain tracking
- ▶ Fragmented, inefficient, and error-prone traditional systems
- ▶ Challenges faced by manufacturers, distributors, and customers:

Timely delivery
of goods

Inventory
management

Quality and
safety
assurance

Operational
optimization

Tracking orders
and ensuring
authenticity and
safety of products

- ▶ Severe consequences in cases of fraud, counterfeiting, and illicit activities in the supply chain

Solution

ProvyLens is a revolutionary solution for the supply chain management industry, leveraging the latest blockchain and zero-knowledge proof technologies

▶ Key features:

Real-time tracking

Tamper-proof records

Secure and reliable data exchange

▶ Benefits for stakeholders:

Improved efficiency and reduced costs

Enhanced quality and safety assurance

Increased trust and transparency

Market Potential

A \$15 trillion global supply chain management industry with steady growth

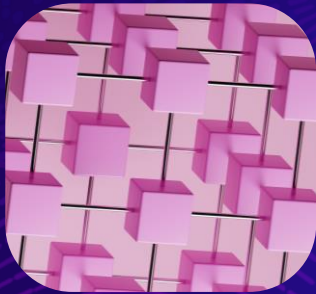

Increasing demand for efficient, sustainable and transparent supply chain solutions

ProvyLens has potential to disrupt traditional systems, catering to industries such as food and beverage, pharmaceuticals, and consumer goods

Our USPs

Smart contracts Automation

Incorporates smart contracts to automate supply chain operations, reduce costs, and increase efficiency while maintaining transparency and accountability throughout the process.

Authenticity verification

Unique identifiers traceable to origin, allowing users to verify authenticity of products and ensuring that it has not been tampered with or counterfeited.

Consumer trust

Provides reliable and transparent supply chain to improve trust and confidence in customer purchases thereby reducing waste, fraud, and environmental impact.

Future Plans

Expand platform capabilities to cover more supply chain stages

Enhance user interface and experience for a seamless and intuitive platform

Create a comprehensive solution that caters to the needs of various industries and stakeholders
