

**DEFI APPLICATION THAT INTEGRATES  
SAVING AND PRIZEGAMING**

# Potential Difficulty

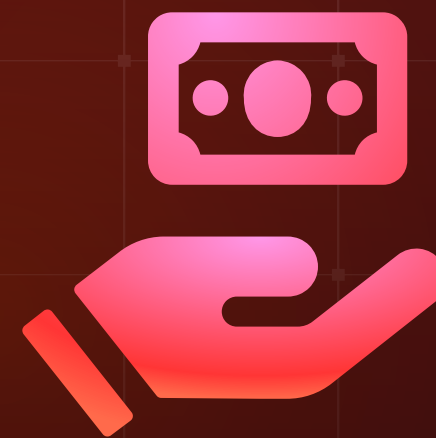

## Saving Account

Low risk - Low Return

## Lotteries

Must pay for tickets,  
small chance to win price

# Introduction

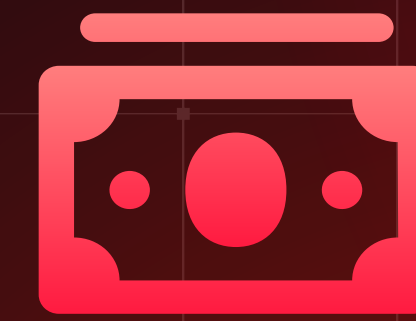

- Dafc is a Defi application that integrates saving and prize gaming.
- All depositors are given the opportunity to win prizes without risking their deposited money by replicating "prize-linked savings accounts." This is achievable because prizes are composed of the interest that accumulates on all deposited money.

Users deposit  
their money  
into the pool

On every  
deposit, interest  
is earned.

Prizes are given  
randomly to users  
through the yield

# How It Works

## Get Tickets

You receive tickets based on the volume of money you deposit. The more tickets you own, the greater chances you have of winning.

**STEP 1**

## Receive Prizes

You can win the pool when you have the tickets, even if it's only 1\$. The prize are made up of the interest earned on all deposited money in the pool.

**STEP 2**

## Win Big No Loss

This is how everyone has a chance to win large and keep all of their money.

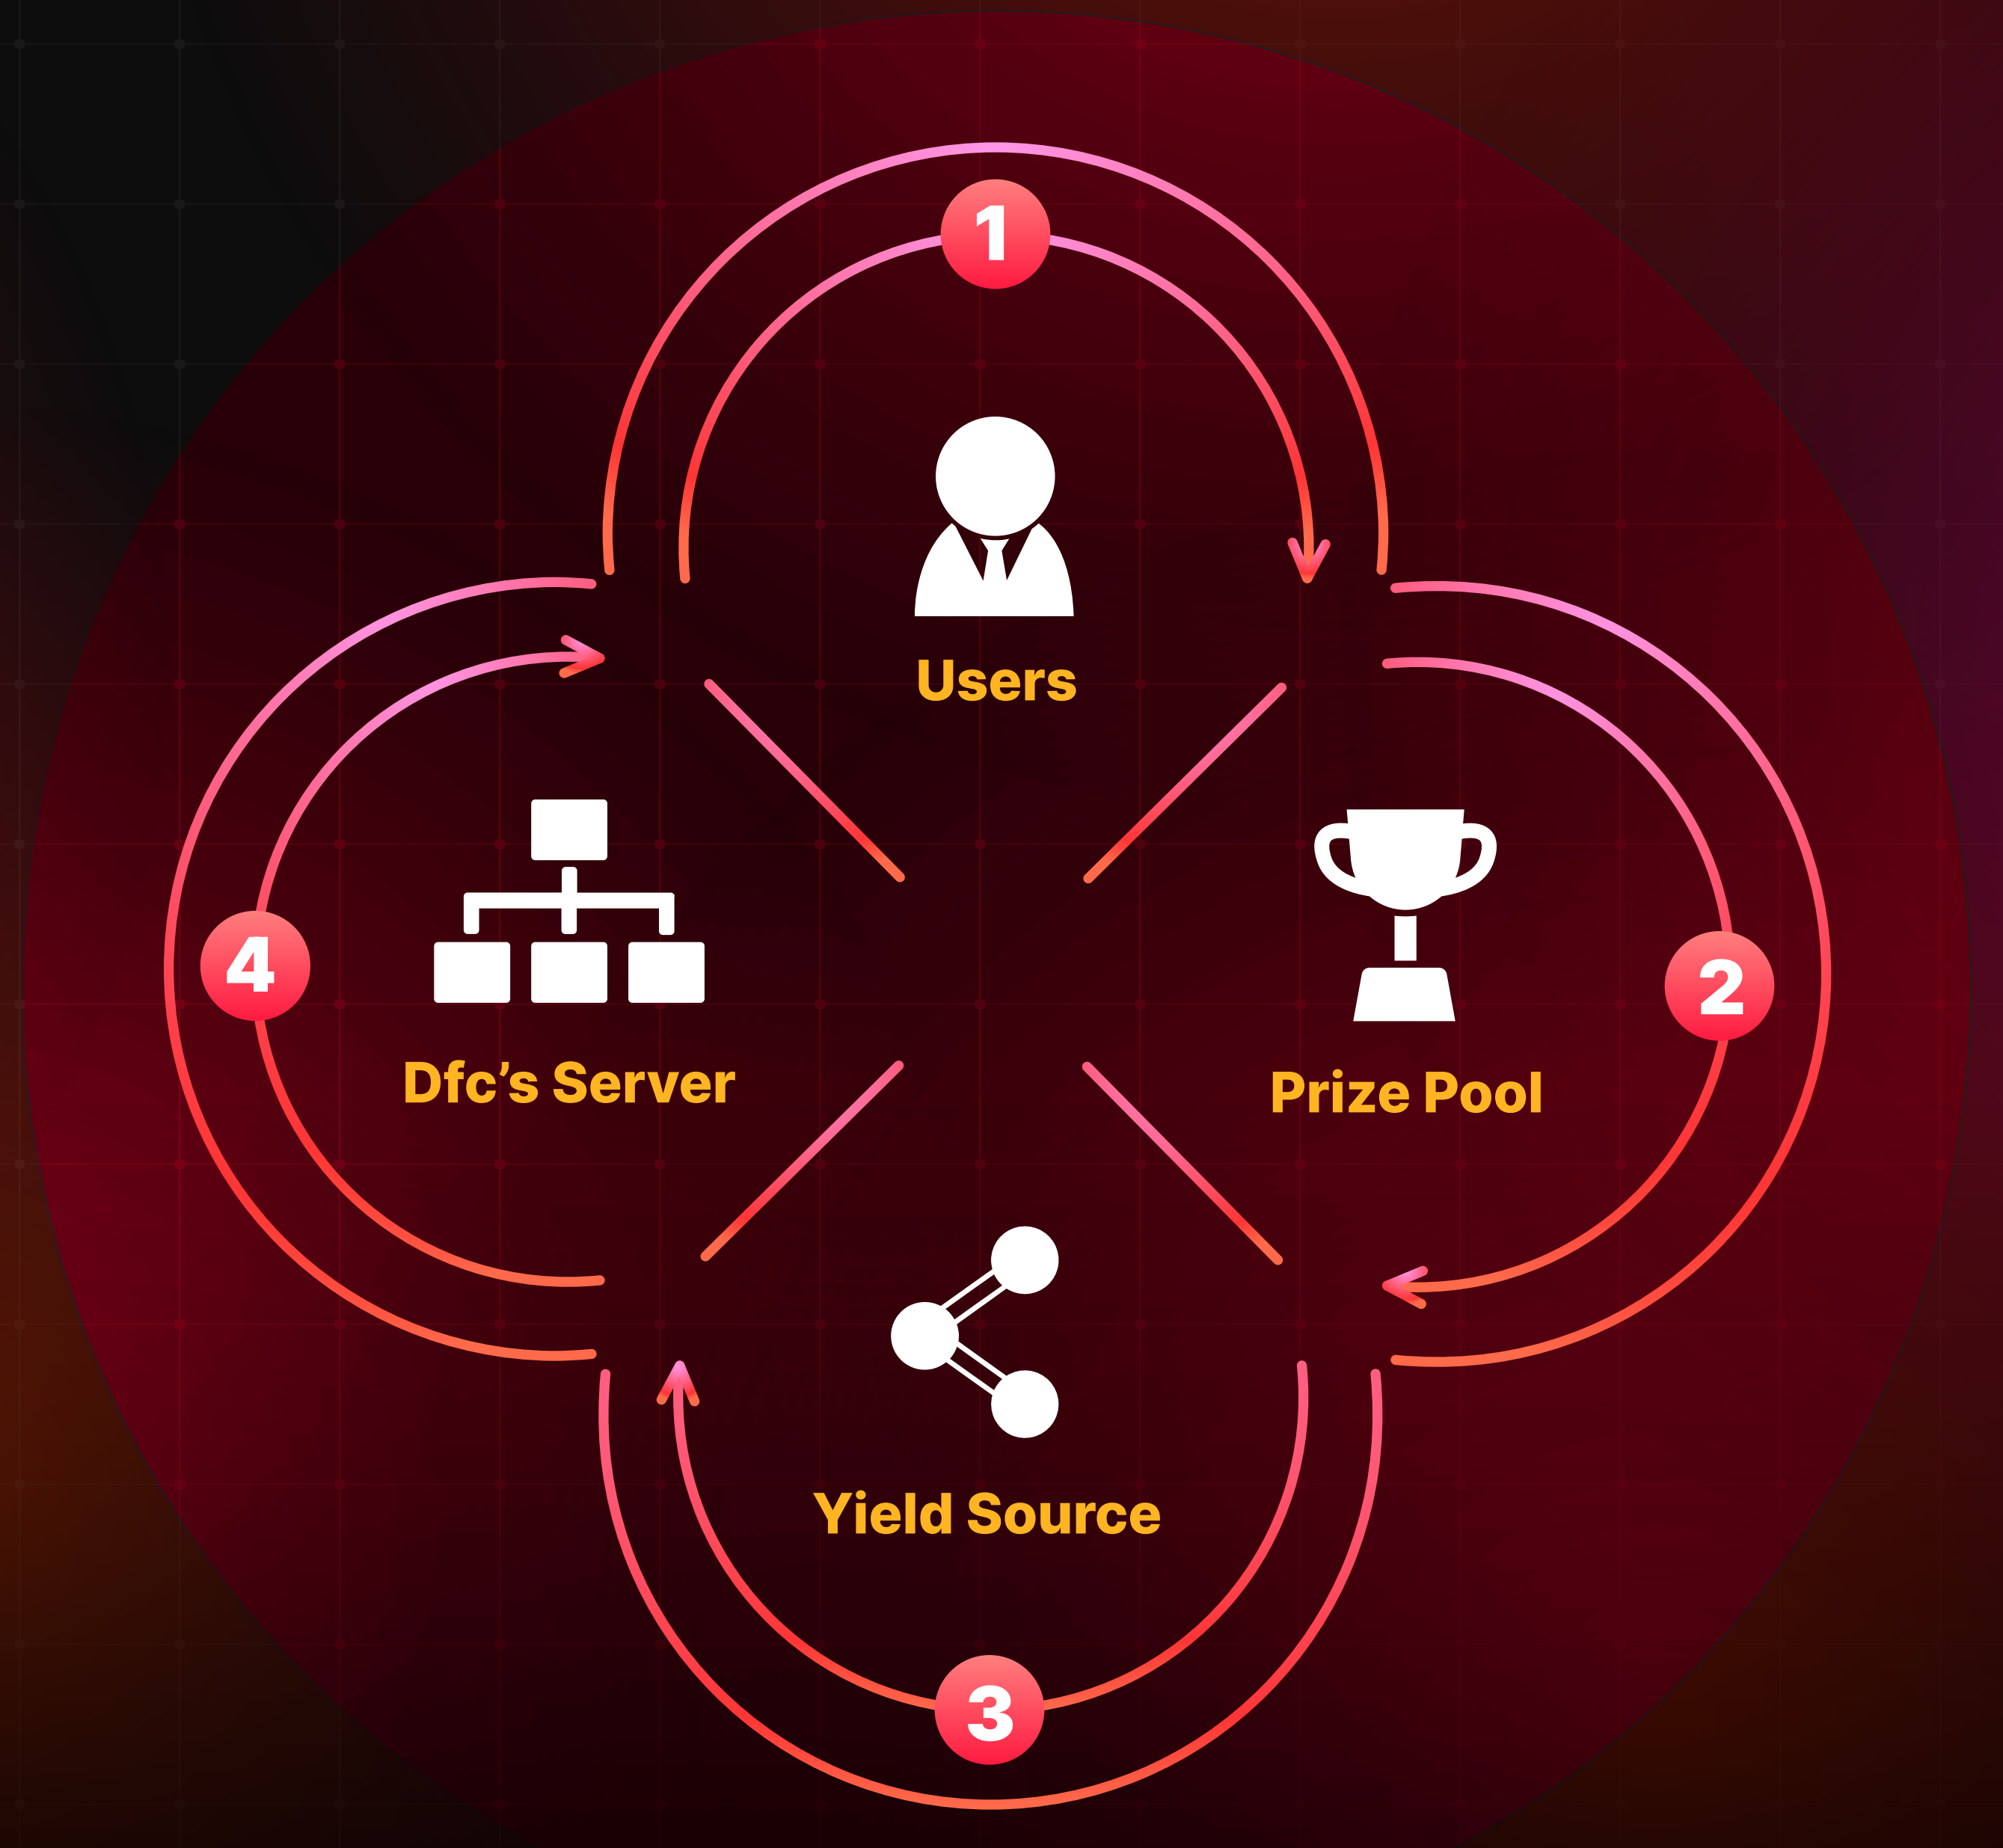

**STEP 3**

# System

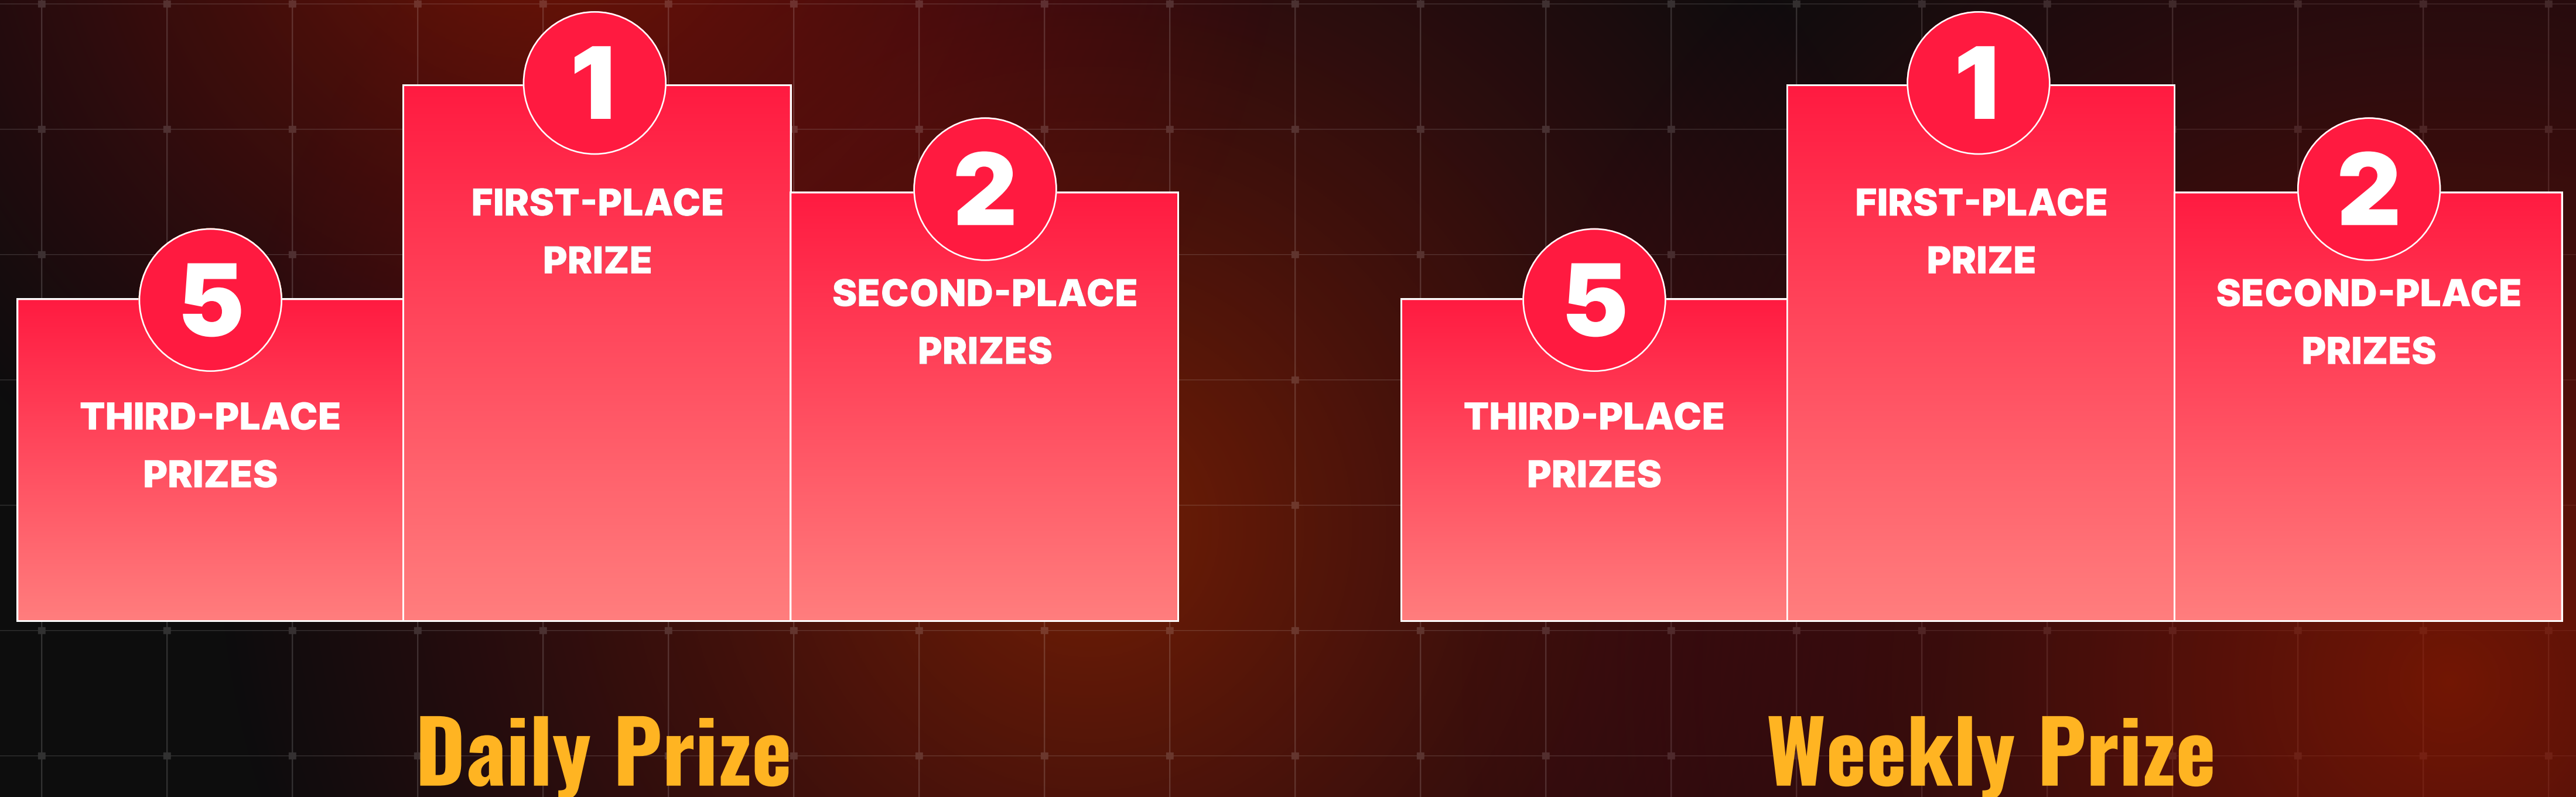

- 1** User deposit funds into Dafatcat prize pool
- 2** The Prize pool deposits funds to a yield source, generating interest to add back to the prize pool as a reward
- 3** After a preset time interval, a drawing occurs to determine the prize winners
- 4** Winner are determined in a transparently process

# Dafatcat Prizes

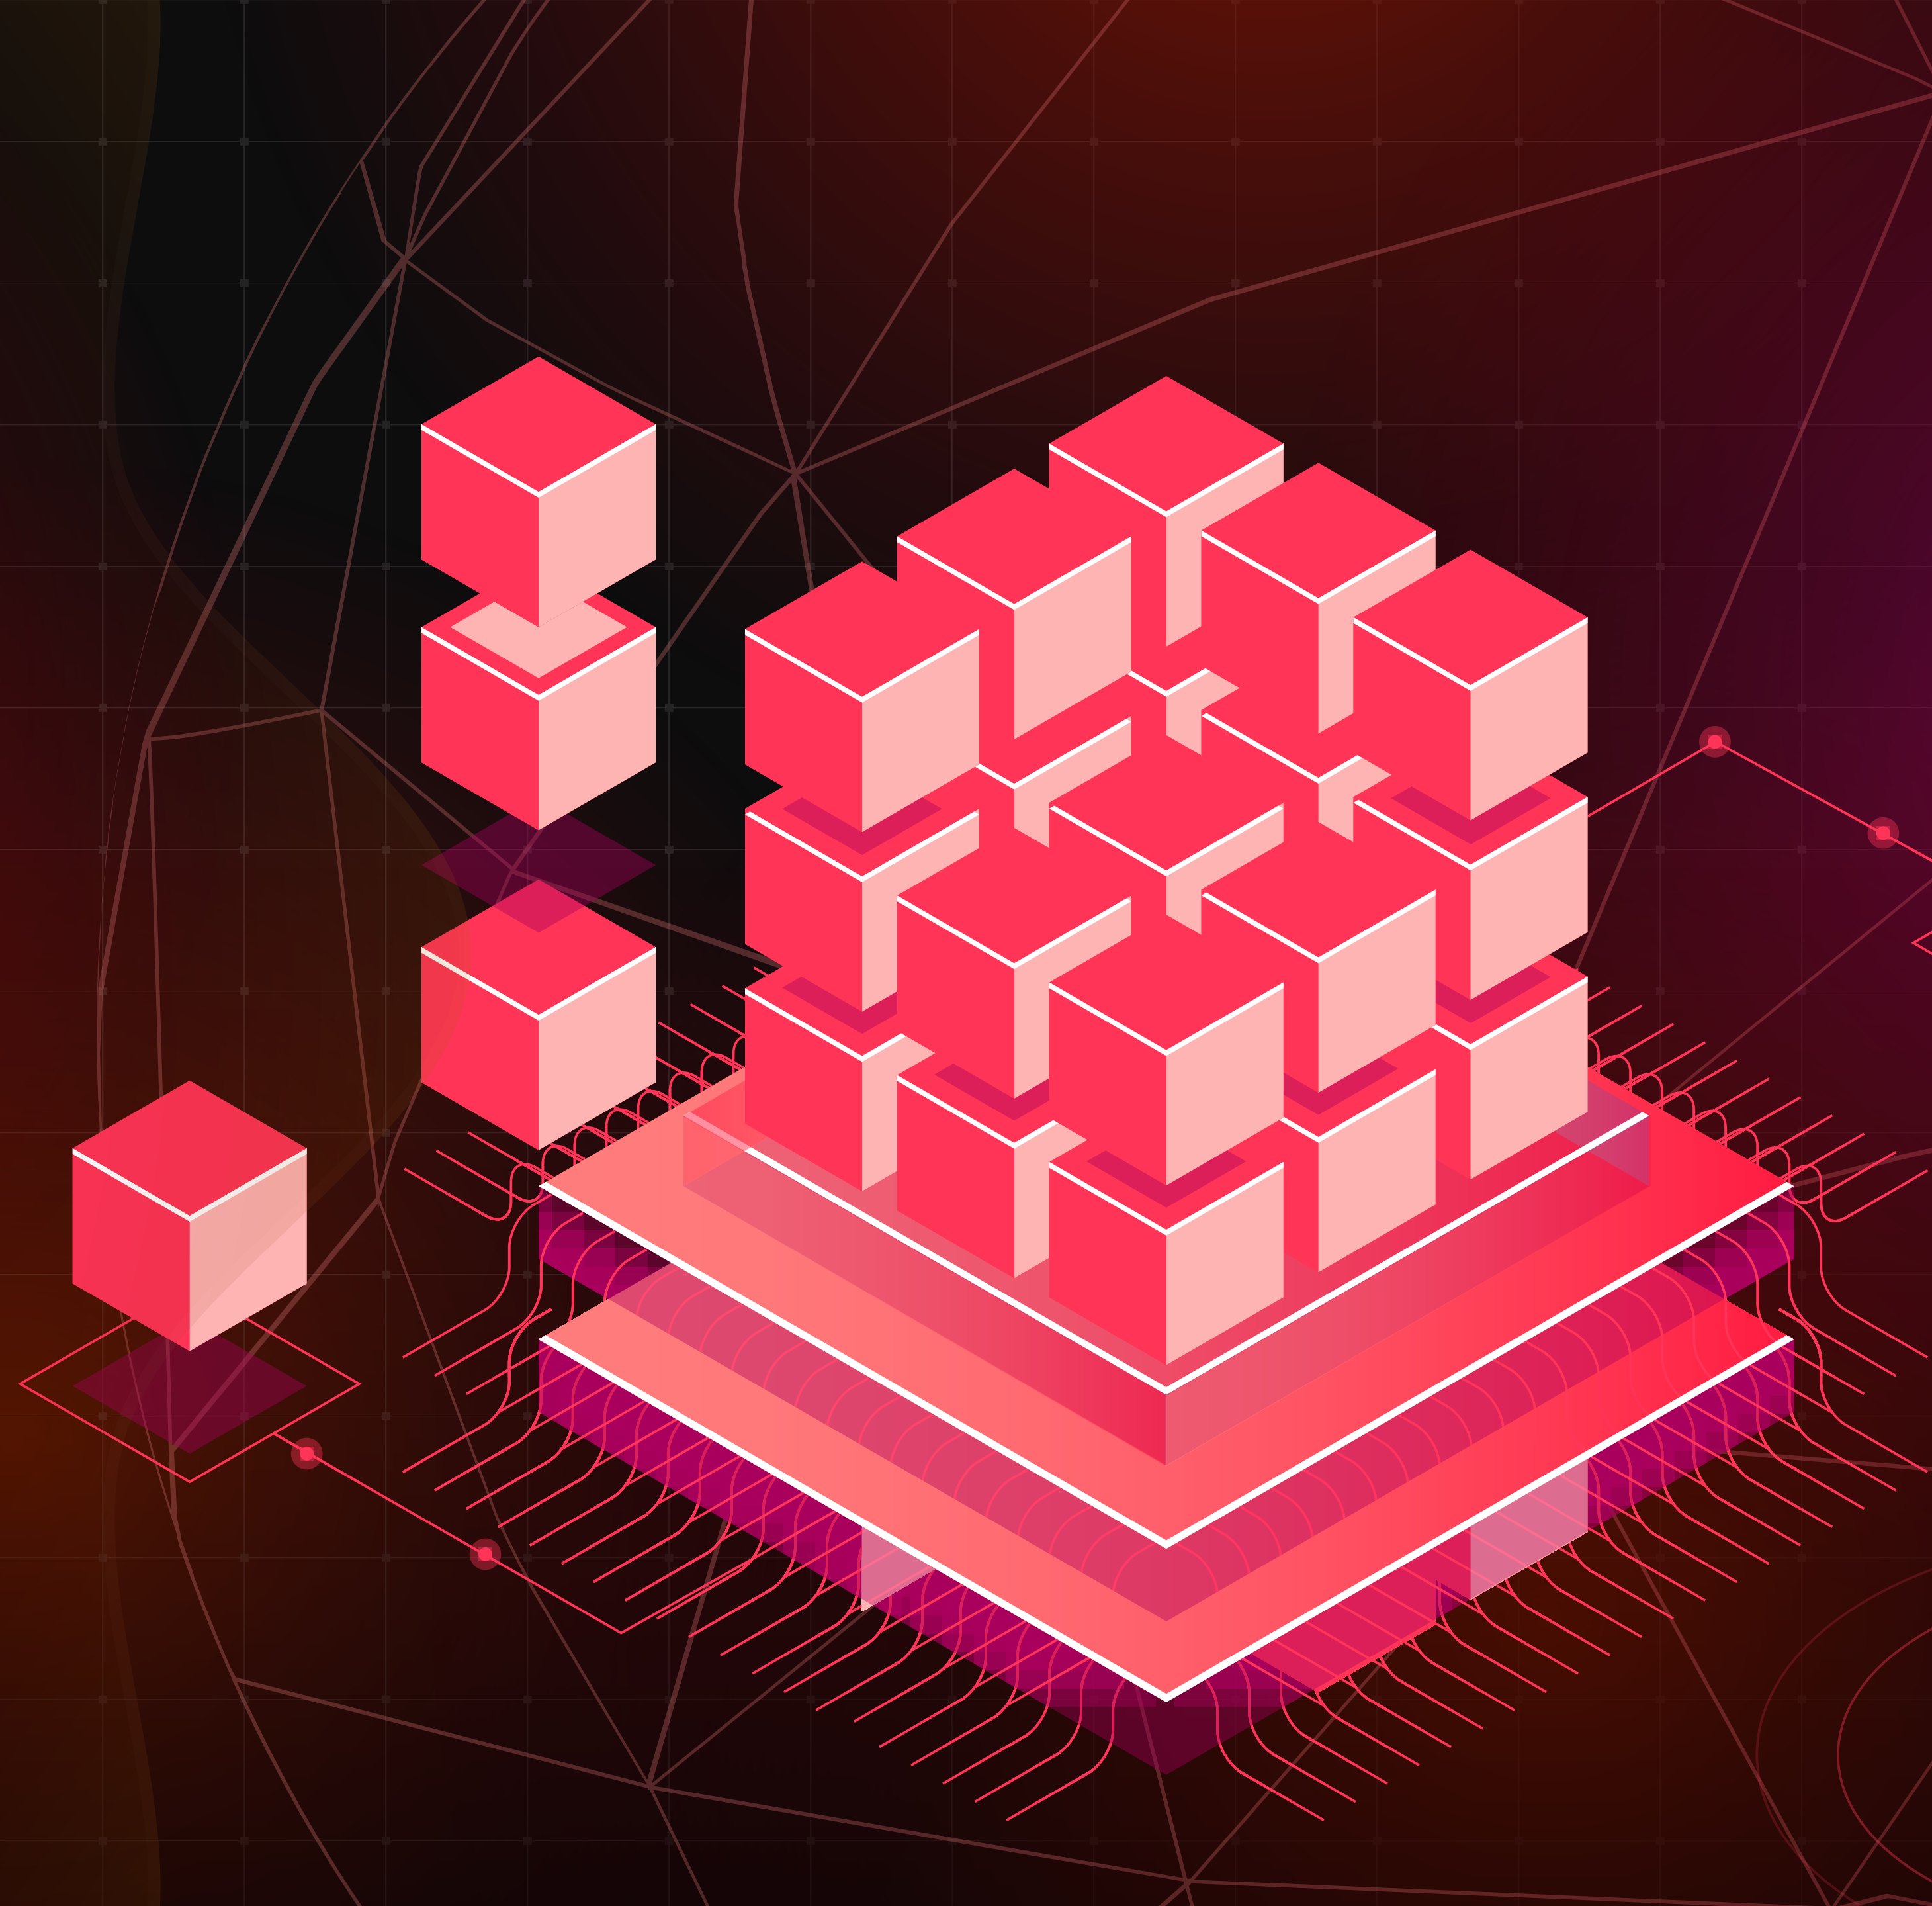

- Dafatcat will award prizes on a daily and weekly basis. The prize pool is determined by the interest earned on all deposited money in the pool
- By participating in the daily prize pool, you will automatically receive tickets to the weekly prize pool.

# Dafatcat Fairness

The Dafatcat is a blockchain-based decentralised and open source software program. Anyone can view and audit the code to verify that the program is fair and secure.

# Referral Program

The referrer receives 10% of the future deposits that their referred users create in Dafatcat. As long as the referred users use Dafatcat, the referral programme provides passive income to them.

# Team

Dafatcat is a blockchain-based decentralised and open source software program, no individual or organization has power over this application.
