ASCAI

AI-Driven Clarity, Security, and Beyond!

Problem

Navigating BTTC smart contracts is risky and confusing. Tricky addresses and complex code lead to vulnerabilities and financial losses, especially for non-tech users.

Solution

ASCAI

AI-Enhanced Function Clarity

ASCAI employs AI to provide clear, understandable explanations of smart contract functions during user interactions with the blockchain.

Real-time Vulnerability Checks

AI constantly assesses function calls for potential vulnerabilities, ensuring secure transactions in real-time.

Intuitive User Interface

ASCAI offers an easy-to-use interface for straightforward navigation, complementing the AI-powered functionalities.

Value Proposition

ASCAI

Empowered Users

AI-driven insights boost user confidence in blockchain interactions, facilitating informed decision-making.

Enhanced Security

Real-time vulnerability checks by AI fortify security, safeguarding transactions during interactions with the blockchain.

Wider Adoption

ASCAI aims to make blockchain accessible and secure for all users, encouraging broader adoption of this transformative technology.
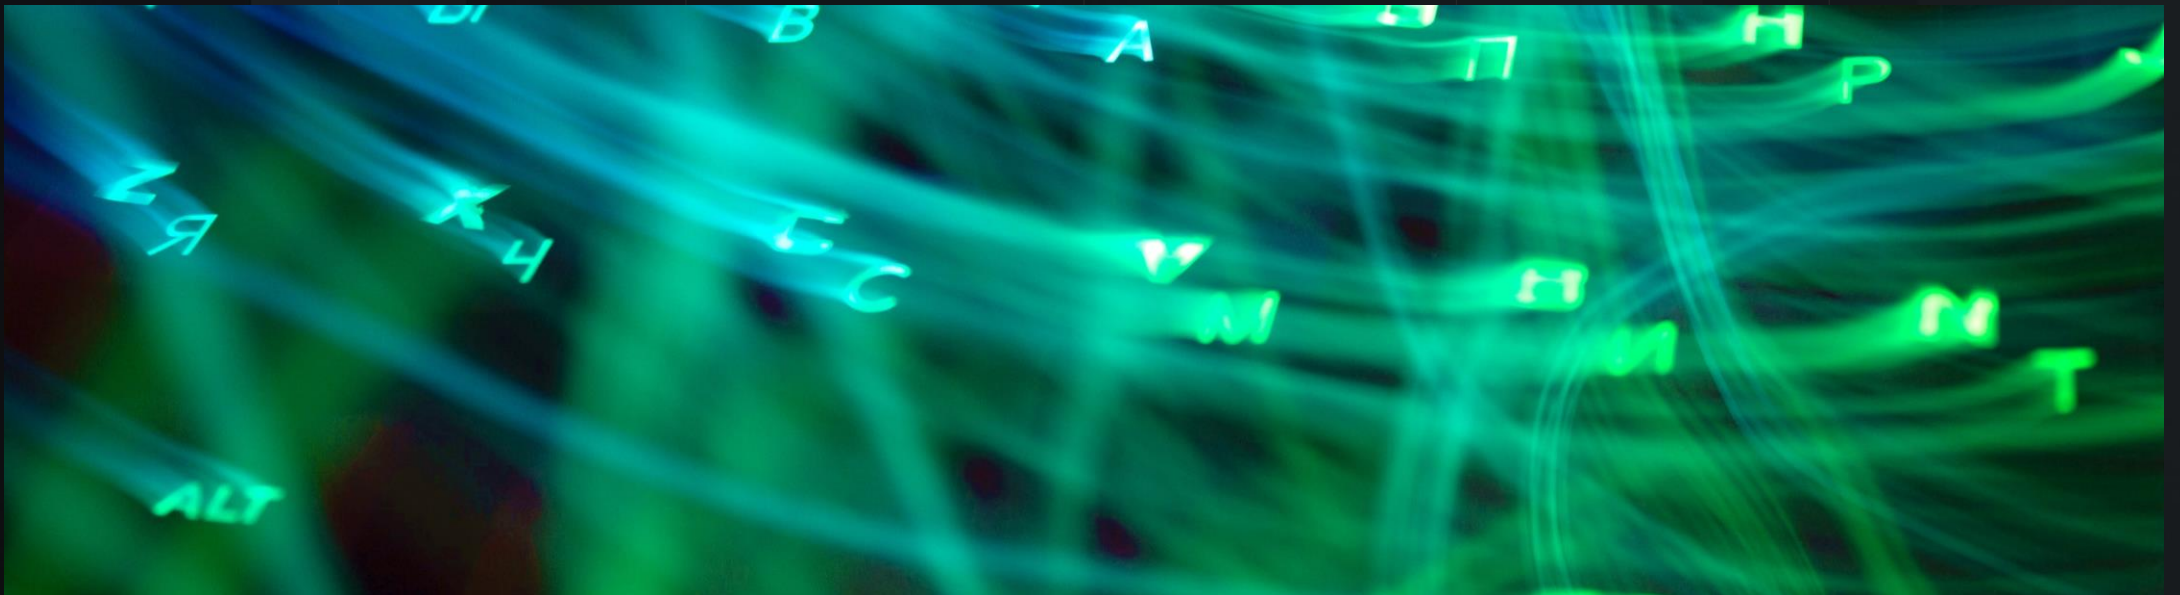

Product

BTTC API Integration

Fetches contract source code and insights from contract addresses via BTTC API.

Comprehensive NPM Package

Capable of extracting all necessary details for thorough contract analysis.

Go-to-Market Strategy

Dedicated Developer Relations (DevRel)

Assign specialized DevRel professionals to establish strong developer relationships.

DevRels promote platform benefits and provide educational resources for seamless adoption.

Strategic Partnerships with dApps

Collaborate with existing dApps for seamless integration and mutual promotion.

Leverage each other's user base for enhanced visibility and adoption.

Early Adopters Program

Offer exclusive incentives, airdrops, and rewards to encourage early adoption.

Team

Rosedawson

Role
Frontend Developer

Background
Proficient in creating visually stunning and user-friendly interfaces, with a focus on seamless user experiences.

Passion
Draws inspiration from all things beautiful and bright, translating this into captivating designs and interfaces.

Zerogravity

Role
Blockchain Developer

Background
Extensive experience in blockchain development, specializing in smart contracts and secure transactions.

Passion
Zerogravity is an avid gamer, infusing creativity and strategy into development.
