THE FUTURE

OF

SECURE TRANSACTIONS & FEE SAVINGS

www.savewallet.io

DECEMBER 2023

Problem

- **Tron Energy Awareness:** Tron Energy system allows users to save significant transaction fees amount, but more than 90% of Tron users are not using this features.

- **Complexity**: Utilizing Tron Energy features requires users to go through multiple steps and have a deep understanding of its mechanisms.

Solution

Enhancing user convenience by integrating the cost-saving transaction fee solution natively into the crypto wallet, allowing users to use it effortlessly, while still ensuring full utilization of all features.

SAVE WALLET

Our Product

01 **Multi-Functional Integrated Wallet**

Our application allows users easy access to and interaction with every decentralized application (DApp) and function on the Tron network.

02 **Minimize Transaction Fees**

Leveraging in-depth knowledge of Tron resources to optimize transaction fees for users

03 **Enhance User Experience**

Save Wallet UI is designed to minimize steps for users and provide them with a convenient experience
04 **Diverse Quest System**

Diverse Task System for Users to Earn Points and Convert into Usable Energy.

Benefits

Energy Savings
Guide users on utilizing the Tron energy system to reduce energy consumption and lower fees.

Seamless Connectivity
No deep knowledge required; users can access and use all Tron features within one application.

Optimized for All DApp
Support and optimize the experience for every decentralized application.

Target Market

TRON USER

Enhanced Knowledge: Provide native saving transaction fees feature within the Wallet, Tron Users can save up to 90% of transaction fees with Save Wallet without any extra steps

NEW USERS

Convenient and Attractive: Attract new users to the Tron Network Ecosystem by providing them a seamless simple experience.

Vision

Strategic Objectives

Establishing Central Position within the Tron Network

Build infrastructure to be the primary destination for users on the Tron network.

Collaboration Hub

Partnerships with DApps and Projects

Expand integration with various applications and projects on the Tron network.

SAVE WALLET

Roadmap

Phrase 1 (Done)

- Market research
- Concept development

Phrase 2 (Done)

- Utilize feedback from research
- Create a detailed product design including user interface, features, and functionality
- Testing and quality assurence

Phrase 3 (Doing)

- Develop a marketing strategy, while also establishing distribution channels
- Deploy on App Store and Play Store
- Launching

Phrase 4 (Pending)

- Release new features: Porfolio management, personal finance
- Airdrop for initial users

SAVE WALLET

Our Product

Our innovative Save Wallet & Integrated DApp Platform is a comprehensive solution designed to revolutionize how users interact with the Tron network. Seamlessly connecting decentralized applications and Tron functions, our multi-functional wallet not only minimizes transaction fees but also enhances the overall user experience.

SAVE WALLET

Conclusion

We are committed to delivering the best experience for Tron users by combining features and in-depth knowledge of the network, creating a top-tier and utility-focused integrated wallet application. Join us in conquering the decentralized world on Tron!

Thank you!
