CONNECTING E-SPORT FANS: A MISSING LINK

THE RISING OF E-SPORT INDUSTRY

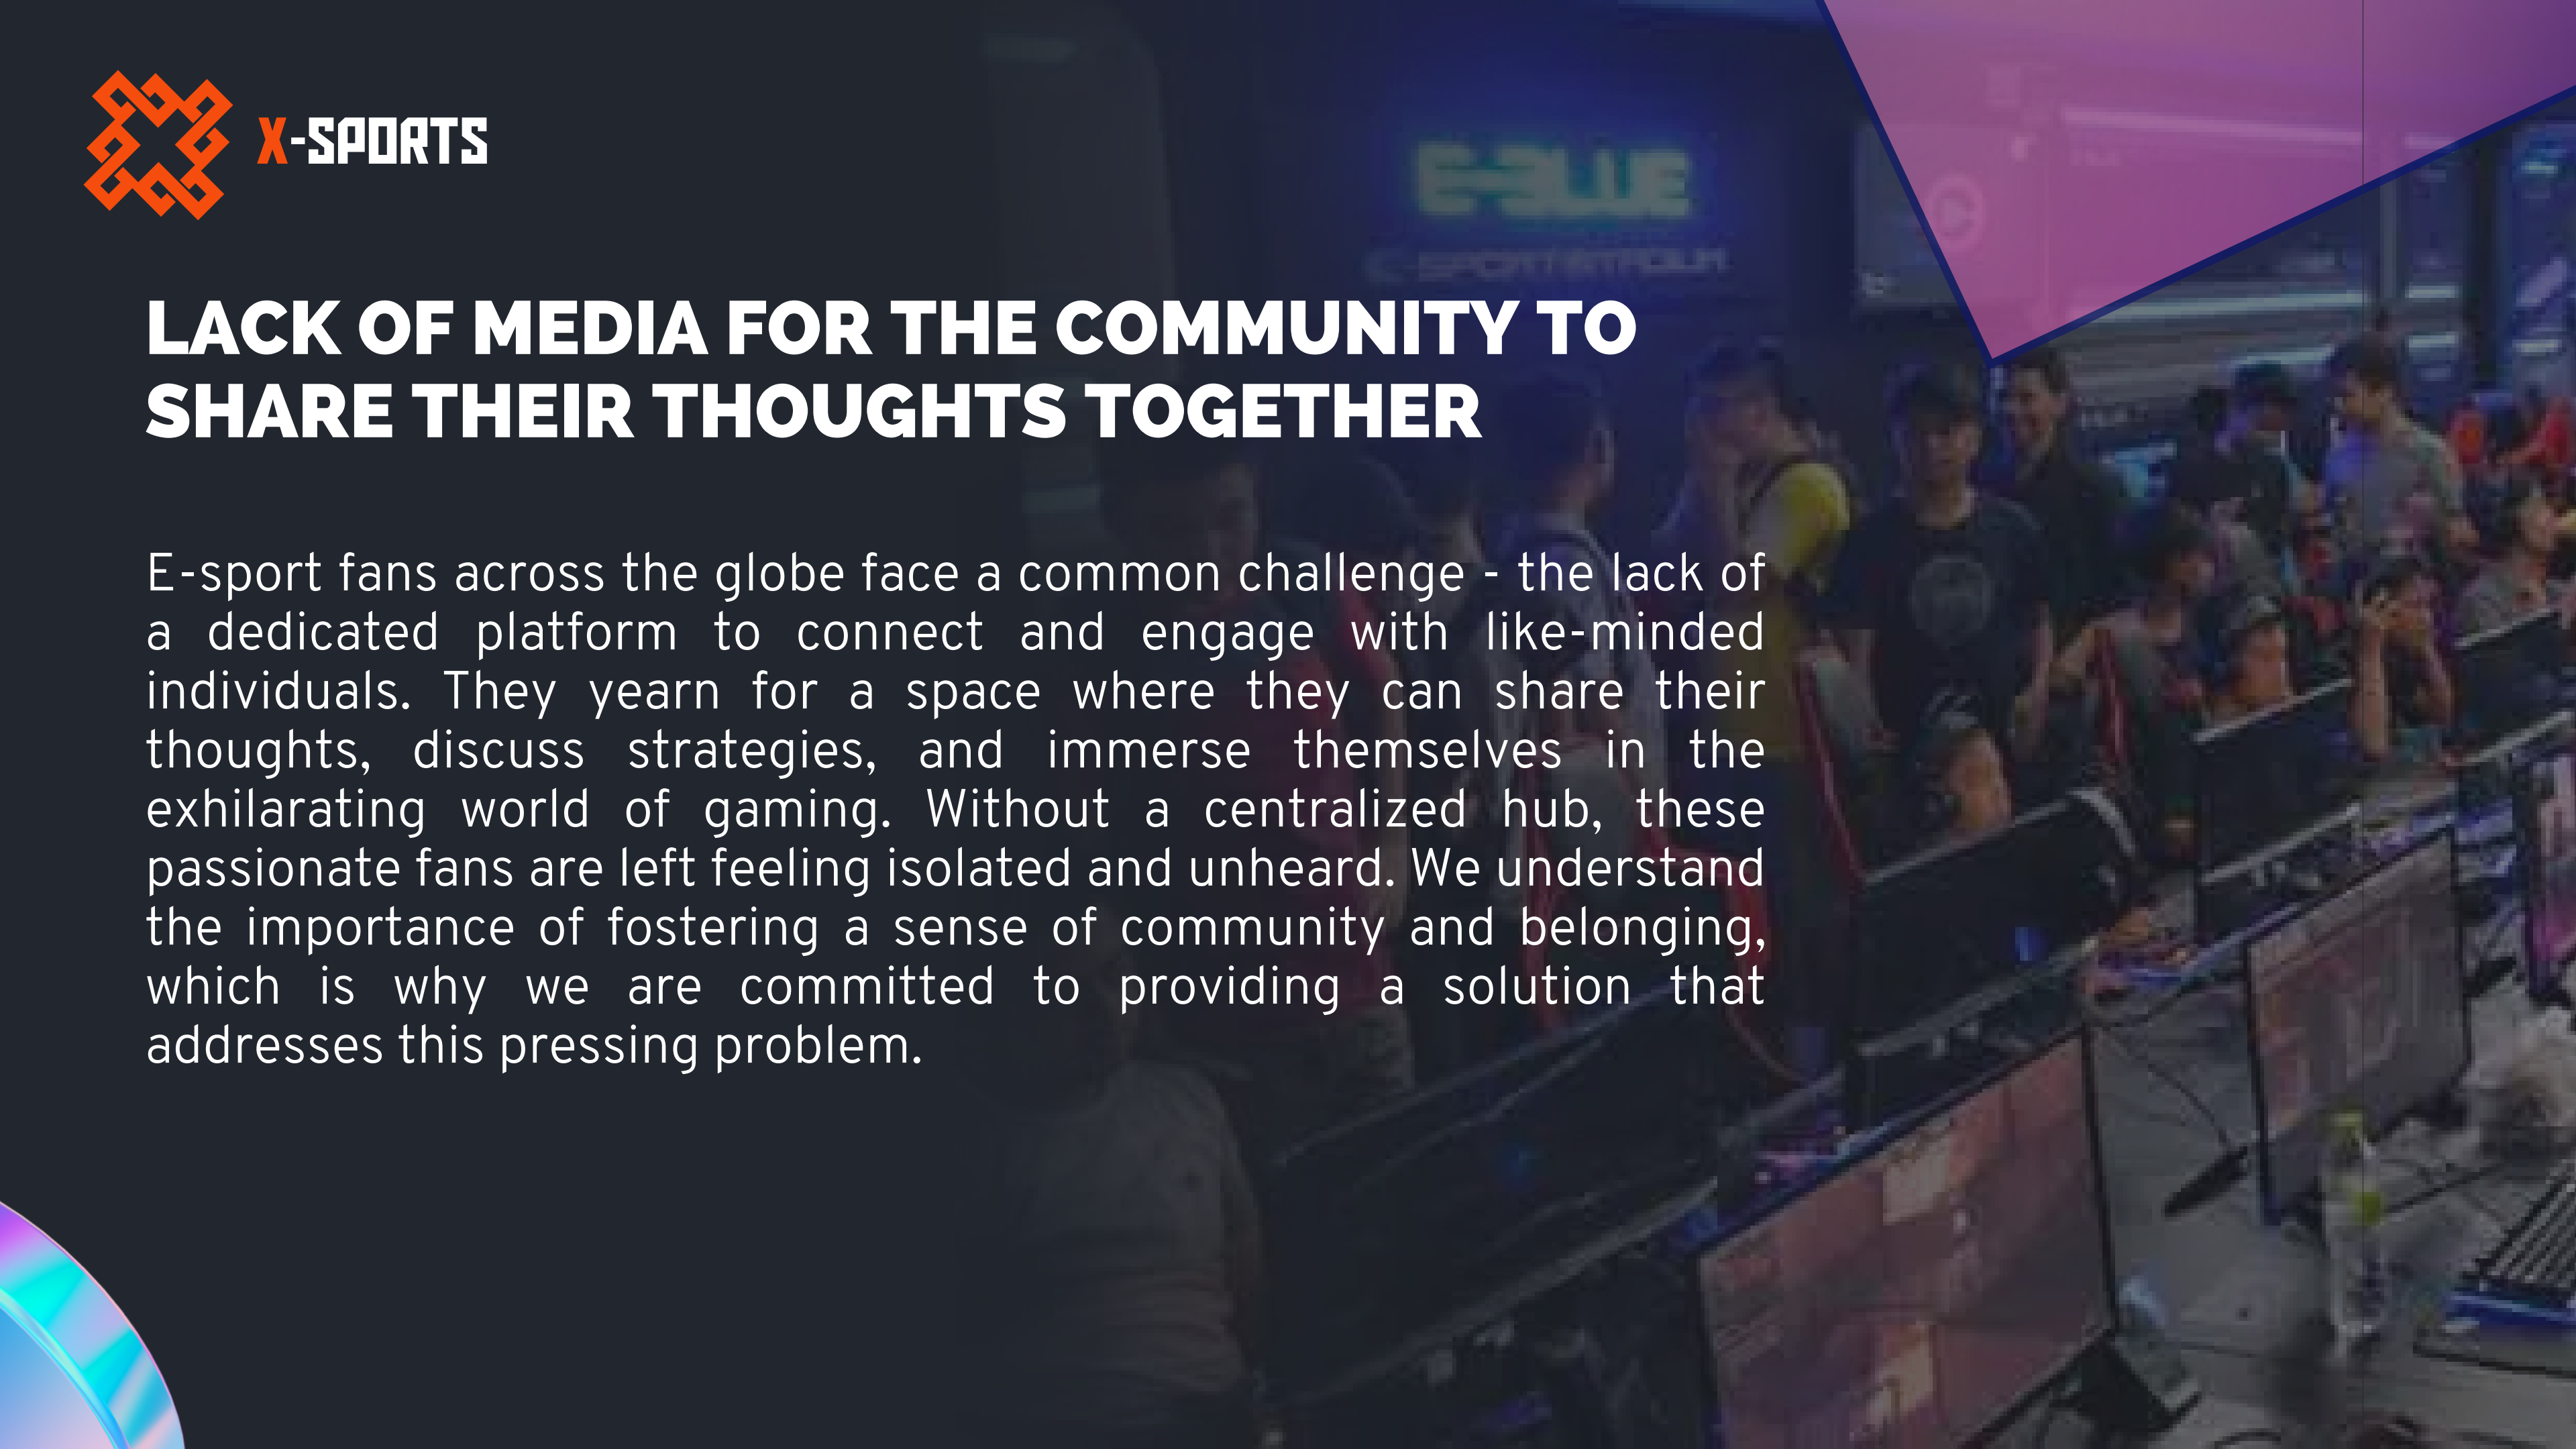

The global esports market is rapidly expanding, with revenues estimated to reach \$1.5 billion by 2023. This growth is fueled by factors such as increasing internet penetration, the rise of streaming platforms, and the growing popularity of competitive gaming. As the industry continues to evolve, understanding its market size and trajectory is crucial for investors, sponsors, and gaming enthusiasts alike.

LACK OF MEDIA FOR THE COMMUNITY TO SHARE THEIR THOUGHTS TOGETHER

E-sport fans across the globe face a common challenge - the lack of a dedicated platform to connect and engage with like-minded individuals. They yearn for a space where they can share their thoughts, discuss strategies, and immerse themselves in the exhilarating world of gaming. Without a centralized hub, these passionate fans are left feeling isolated and unheard. We understand the importance of fostering a sense of community and belonging, which is why we are committed to providing a solution that addresses this pressing problem.

THE RISKY LANDSCAPE OF ONLINE GAMBLING

SKY BET

In 2021 it was reported that up to 120,000 people, who had explicitly asked Sky Bet and its sister company Sky Vegas not to send them betting correspondence, were sent multiple promotional emails during Safer Gambling week in a “catastrophic mistake.”

LADBROKES

In 2022, Ladbrokes was fined £17 million after failing to enforce player safety and anti-money-laundering measures. At the time, it was warned it could lose its UK gambling licence if it happens again.
