

TRON Unlimited Oracle

by  **RedStone**

Delivering Diverse Data Feeds to TRON

Example Use Cases

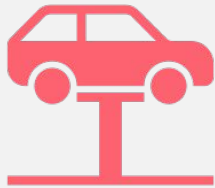

Lending Protocols

Synthetic Assets

Options Protocols

Parametric Insurance

Anti-Sybil

Automatic KYC

...

The Problem

TRON ecosystem lacks **diversified**
and **customisable** data feeds.

Such situation stifles TRON's Web3 expansion

The Solution

Oracle with a new approach of **keeping data off-chain** and optimising the process of **data delivery** to dApps on TRON.

That's a new paradigm for what can be built in the ecosystem

Try it out!
